

Prepared for Legal Intake and Counsel Advisory

Executive Legal Synthesis

This document represents a certified export of structured incident logging and somatic journal tracking recorded by the user. The underlying entries have been cryptographically timestamped and anchored to verify integrity of recording timing.

The records indicate an escalating pattern of gender-based workplace hostility, avoidant behavior modifications (avoiding elevator and stairs), and verbal remarks matching indicators of Republic Act No. 11313 (Safe Spaces Act) and Republic Act No. 9262.

INCIDENT LOG RECORD - CHRONOLOGICAL FILE 1

Incident 1: Pantry boundary intrusion and verbal comments

Date/Time: May 23, 2026
Location: Office pantry, 14th floor
Asserted Actor: Marco (Coworker)

Detailed Narrative:

Marco came up behind me while I was preparing coffee at the pantry counter. He stood so close that I could feel his breath and remarked in a low voice that my skirt was 'a good choice today'. He lingered there for a few moments, blocking my path, before J. walked in, which caused Marco to step back.

Felt During Interaction:

Frozen, extremely tense, stomach dropped
